## MESSAGE

College of Dairy Technology, Warud, Pusad was established in the academic year 1992-93 as a pristine institution in our country. It offers inimitable graduate courses as Bachelor of Technology in Dairy Science & Engineering to accomplish the county's need in the Dairy & Food Processing field.

In today's competitive world, I consider it to be an honor and opportunity to present to you a group of young dynamic technocrats who have been groomed to face challenges in every aspect of industry/ business environment. At the College level, we constantly strive to maintain the holistic development of the students by developing the pragmatic approach and including presentations, case studies, industrial tours and participation in seminars and conferences, sports & cultural activities.

I am glad to congratulate the Placement Cell, College of Dairy Technology, Warud for publishing a placement brochure of the B.Tech (DT) student with student's profile and College activities. I believe that the information provided in the brochure will be helpful to the stakeholders in providing In-plant training to B. Tech (DT) final year students & provide career opportunities to the these students.

## MESSAGE

College of Dairy Technology has been established for creating technical manpower to support the growing dairy and food processing industries by imparting education in the discipline of "Dairy Technology". The placement brochure of 2021-22 batches is a modest effort to approach recruiters with best of our students and to derive advantage of such relationship mutually for success of student careers and benefits of employers.

The Institute emphasizes on the multifarious development of the individual and produce not only capable technologists but also act as a shaping ground for the entrepreneurship development among the milk producer, farmer & unemployed youth. It believes in honing their technical abilities through rigorous training, attention and observation coupled with adequate stress on development of soft skills and ownership.

I personally invite and promise to extend possible support to all the recruiting agencies and employers at our place to cultivate such a strong relationship between recruiters and university. I am confident that our students will fulfill the expectation of stakeholders and I wish the outgoing graduates of the College of Dairy Technology for the success and excellence in careers.

I took an opportunity to congratulate the Placement cell, College of Dairy Technology, Warud for their sincere effort behind publishing a placement brochure of the B.Tech (DT) student. I believe that the information given in the brochure will be helpful to the milk, beverages processing industries.

#### MESSAGE

It gives me great pleasure in inviting you to take a tour of our facility and the caliber of our students through the brochure you now hold in your hands. College of Dairy Technology, Warud, Pusad is a Pioneer institution in Maharashtra in Dairy technology. The college offers a unique undergraduate course of Bachelor of Technology in Dairy Technology to fulfill the country's Dairy and Food Processing Arena needs.

The operational aspects of the milk and food processing industry have undergone a significant metamorphosis. More excellent merger with the food processing industry has been envisaged, newer range of convenience foods have been successfully launched, and greater importance being attached by the professional management to improve the operating efficiency. Appreciating the pace and direction of change in the Dairy and Food sectors and the need to provide an appropriate blend of information, concepts, tools, and techniques to Dairy Technologists, the course structure for B. Tech. (DT) is very comprehensive and leaves no aspect of Plant Operation and Management untouched.

The stint of students at the university campus has honed their knowledge. It has inducted in them the keen sense of competence and technical knowledge par excellence to take on the responsibilities of the dairy & food industry in the coming years with confidence.

We are proud to have a very inquisitive, talented, enthusiastic, and energetic group of students from diverse backgrounds. I am sure each of them will prove to be an asset to the organizations they will get associated with.

Dr. P. G. Wasnik

## About The College

Taking into consideration the demand for technical personnel, skilled workers and the consequent need for post-production dairy processing education, the Government of Maharashtra sanctioned and established College of Dairy Technology at Warud (Pusad), Dist. Yavatmal under the Jurisdiction of Dr. Panjabrao Deshmukh Krishi Vidyapeeth, Akola, with an initial intake capacity of (32 + 5) students, offering the four-year B.Tech. (Dairy Technology)

degree course with the mandate of teaching, research and extension education as prime activities.

The regular activity of this college was started in Sept 1992. On the establishment of Maharashtra Animal and Fishery Sciences University, Nagpur in December 2000, this college was transferred from Dr. Panjabrao Deshmukh Krishi Vidyapeeth, Akola to MAFSU, Nagpur. Since 2000, this college became its Constituent College under the Faculty of Dairy Technology. Construction of the permanent administrative building of the Institute was finished with the end of 2004 and college was shifted to the permanent administrative building. Construction of Students Training Dairy Plant was finished in 2006 but installation of Experiential Learning Unit setup was possible after reception of financial aid from ICAR in 2010.

College has been developed Experiential Learning Unit with modern infrastructure and equipments required for demonstration and "Hands-on training" The traditional Indian dairy products produced by this experiential learning unit are marketed on a regular basis College has headed towards overall progressive development in educational facilities, amenities for students and staff. Equipments in laboratories facilities for improving teaching, research and extension. Frequently college extends its expertise to the adopted villages by organizing camps, technical lectures, on farm demonstration and training services. Hence undergraduate experience of student becomes memorable and a stepping stone for successful careers.

Our biggest resources and strengths, however, are our students. Each year our 8-10 student crack AIEEE entrance examination to admit themselves in Post Graduation with fellowships in national institute, In year 2015-16 institute received Accreditation by ICAR, New Delhi. Placement cell is doing well to provide 100% industrial placements to under graduate. We anticipate quality students getting in as admissions get more competitive and the University would gain exceptional talent. The area of Dairy and Food is replete with opportunities. With the world facing reverse challenges like climatic change and food security, it is we who would be called upon to satisfy the food/dairy needs of the growing population, anticipated to reach a billion by 2050. We would not only need to be technologically innovative in producing more but also adhere to strict quality standards and render nutritional food at acceptable costs to our current and future consumers.

**The institution has been established with the following Objectives:**

- Creating technical manpower to support the growing dairy and food processing industries by imparting Graduate in the discipline of "Dairy Science and Technology".
- To do research in the discipline of "Dairy Science and Technology"
- Arrange capacity/skill development programs for dairy farmers and entrepreneurs for upliftment of quality of life in the under privileged tribal region of Vidarbha.
- Contribute to public health research and practices with an ultimate aim to enrich human nutrition and welfare.
